# **ChiroSUITE ESET Endpoint Contract**

Completion of this form is required to take part in the ChiroSUITE/ESET Endpoint Initiative. You will use this form to add new computers or remove existing computers, so please fill out appropriately. You can fax back the completed form using the toll-free fax number above or are welcome to scan & email the form to <a href="mailto:support@chirosuite.ca">support@chirosuite.ca</a>, or kick it old school and simply mail it. Please just always be aware of security concerns when emailing sensitive information.

### 1. Background Information

ESET Endpoint is the anti-virus/firewall software that we use internally at Sunbaked Software to protect all of our computers and servers – we have for the last 6-7 years. Although any anti-virus/firewall software isn't going to protect you 100% if you are not cautious about your internet use, we have found ESET Endpoint to be a great product for us! We certainly respect your choices & are happy if you are running any product that you prefer, but so many people have no preference and require help with installing & configuring their anti-virus/firewall software to work with ChiroSUITE anyway, so the ESET Endpoint Initiative was born.

## 2. Agreement Details

For \$5/computer/month we will remote in, install the latest version of ESET Endpoint Security and configure it to work properly with ChiroSUITE and any other specific exceptions you require. The fee will be perpetual and include license renewals & software upgrades when they are released, for the life of the agreement. Each \$5 license is valid for 1 computer only but can be transferred to a new computer after it is removed from the previous computer - a transfer fee may apply.

#### 3. Termination Options

You have several termination options. You can either buyout the remaining months on your license or simply terminate the license and we will remove the software. If the computer cannot be accessed to remove the software then your only option is to buy out the remaining months on your license. We require 30 days notice (for each machine) to terminate this agreement and remove ESET.

## 4. Clinic & Clinic Owner Information

Clinic Name			Clinic Phone Number
